Policy No. 013/2025

Energy and resource policy

Thailink 2012 International Co., Ltd. is committed to creating a stable, sustainable, fair and environmentally friendly energy and resource utilization system to support economic growth and employee quality of life as follows:

1. Promote energy security by emphasizing the efficient use of energy both within the organization and those who produce products for the company.
2. Promote the use of renewable energy in the supply chain as appropriate by organizing various activities to focus on the efficient use of energy.
3. Promote energy saving in all company activities, including transportation.
4. Continuously improve energy efficiency to meet targets.
5. Focus on using resources wisely and sustainably.

This Policy is effective from April 1st, 2025.
